

SAVE THE DATE: FEBRUARY 27, 2014

**If you attend
only one
professional
seminar
this school
year, make
it this one!**

Dr. David Sousa is a brain research scientist, international educational consultant, and author of more than a dozen books. He has the rare ability to translate current brain research into applicable strategies to improve learning. He

has presented to more than 200,000 educators at national conventions of educational organizations across the US, Canada, Europe, Australia, New Zealand, and Asia.

Dr. Sousa has been interviewed by Matt Lauer on the NBC Today Show and by NPR about his work with schools using brain research.

His most popular books include:

- *How the Brain Learns*
- *How the Special Needs Brain Learns*
- *How the Brain Learns to Read*

813.269.2100, ext. 115 or
ppennington@tampadayschool.com**

**A COMMUNITY SYMPOSIUM CO-HOSTED BY TAMPA DAY
SCHOOL AND FRIENDS OF TAMPA DAY SCHOOL**

After attending Dr. Sousa's workshop for educators, school psychologists, and local physicians, I was "hooked." I knew we needed to bring him to Tampa to share his knowledge with the professional community.

He has a fascinating and engaging presentation style with a unique talent for interpreting scientific brain research into practical "use tomorrow" strategies.

Don't miss this opportunity to see Dr. Sousa!!!
